2nd Position in CS FYP Exhibition 2023

Air University Multan Campus

PROJECTS

Dr. Chef - Final Year Project

A smart web app offering various recipes for healthy individuals and patients with conditions like cardiac, diabetes, and high blood pressure. Users access recipes without signing up, while registered users enjoy benefits like a calorie tracker, exercise calculator and diet plans.

Attendance Portal - Side Project

A web portal that simplifies intern attendance management, featuring an admin panel for grading based on attendance. Students can mark attendance, request leave, and admin approve/disapprove requests while accessing attendance records.
